10. **AHE's practice guidance is an essential reference and education tool for ASCs and ES departments.**
  - a. True
  - b. False

## » How to earn CPE credits

This self-study series is presented by the Association for the Healthcare Environment (AHE) of the American Hospital Association for the purpose of its members earning

continuing professional education (CPE) credit. AHE's mission is to lead, represent and serve its members by promoting excellence, best

practices, innovation and leadership through advocacy, education and certification.

CPE credits may be used toward maintenance of the Certified Healthcare Environmental Services Professional (CHESP) certification and to validate and document in-service training for staff personnel files. One-half contact hour is awarded by AHE for this and other offerings. Participants may have up to two attempts to attain a passing score of 70 percent on the post-lesson quiz. In accordance with CHESP requirements, those renewing certification must earn 45 contact hours of continuing education in a three-year period.

Participants must read the self-study lesson in this issue of *Health Facilities Management* and complete the post-lesson quiz. The quiz should be graded by the supervisor, validated, retained and filed by both parties along with the certificate of completion received by AHE. ■

### Submittal form: Please print or type

I have enclosed the scoring and administrative fee of \$15. (Please make checks payable to AHE. Refunds cannot be provided.)
