LIGHTEN YOUR LOAD RecyclePak makes it easier to package and ship lamps, ballasts, batteries, mercury and electronics for recycling. The prepaid recycling program ensures complete compliance, while reducing the risk of contamination by storing hazardous materials at the user's facility. When the container is filled with items and devices for recycling, the user ships it prepaid.

Grainger • www.grainger.com

KEEPING SCORE The company's national compliance experts can help keep a facility compliant with the Joint Commission, EPA and other regulating agencies through the use of its Sustainable Solutions model. An integrated waste stream environmental scorecard can increase savings through improved waste segregation and diversion.

Stericycle • www.stericycle.com

RUGGED DESIGN Element Indoor Recycling Stations are available in up to four waste stream configurations. They exceed EPA guidelines for postconsumer recycled content and can count toward LEED credit. Each station is marked prominently and holds up to 57 gallons of waste and recyclable materials. Rubbermaid • www.rubbermaidcommercial.com

A CUT ABOVE The model 0201 OMD optical media destroyer shreds CDs, DVDs, credit cards, ID badges, access cards and similar items. It reduces the objects to 2.2-by-4-mm particles, meeting the requirements of NSA/CSS 04-02.
