GO WITH THE FLOW

The M-Dura specialty collection includes gooseneck model faucets for hand-washing areas in health care facility applications. The faucets are available with two flow-rate options: a standard 2.2-gallon-per-minute (gpm) or a reduced flow rate of 1.5 gpm, which can help earn LEED points.

FAST RESULTS The SureTrace circuit tracer lets electricians quickly locate wires or cables behind walls, pinpoint opens/shorts, and identify fuses and breakers on both energized and de-energized circuits from 0 to 600V AC/DC. Its display provides a numeric value between 0 and 99 and a variable pitch/tone audible indication as fast-response tracing feedback.

EASY MANEUVER

The Access High-Low Exam Table provides an 18-inch profile in the seated position to allow level transfer from standard wheelchair heights, complete with upright seat back and safety grab bars. Featuring a 700-pound weight capacity, the seat reclines and automatically converts to an exam table to eliminate moving the patient manually.

See How Much You Can Save On Parking Lot Maintenance By Going GREEN

Slash Pavement Maintenance Costs

Cut thousands from pavement maintenance costs – examples:

- \$50,085 for 37,100 sq ft
- \$74,375 for 85,000 sq ft
- \$112,200 for 34,000 sq ft

Go GREEN While You Save

No hydrocarbons, no hazardous materials, cold applied, no odor, no tracking. Lowers parking lot temperatures 15 to 30 F in sunlight. Exceeds solar reflectance index for LEED® project certification. EPA approved.

Compete With A Better-Looking Parking Lot

Signal your commitment to safety and our environment with the concrete-like appearance of E-KRETE®. No more bouncing shopping carts or broken high heels for customers. No more business interruptions for frequent resurfacing.

Learn how you can slash pavement maintenance costs, go GREEN while you save and compete with a better-looking parking lot. Go to www.e-kretesavings.com

LONG-LASTING PRODUCTS

Concrete Benefits For Less Than Asphalt™

GREEN CLEANING Orbio Multi-Surface cleaning solution is generated on site by the Orbio 5000-Sc machine. The system utilizes an electrically activated water (EAW) process that combines tap water, a small amount of salt and electricity to generate the multipurpose, sustainable cleaner. It is the first cleaner generated by EAW technology that is Green Seal GS-37-certified.

COMPACT AND QUIET The new Vantage 17 compact autoscrubber is designed for small-area cleaning applications. Using a gas spring for optimal blade pressure, the unit's squeegee system picks up solution in both forward and reverse in just one pass. It operates at a sound level of only 67 dB A for cleaning in noise-sensitive areas.
