

PATIENT SAFETY This security hardware system is designed to prevent patients from wandering away from hospital property and to keep unwanted outsiders from trying to enter. The system includes weatherized panic devices with delayed unlocking hardware. **Detex • www.detex.com**

SIMPLE SOLUTION A health care-compliant interface system can reduce the cost of patient room televisions by allowing the use of varied sizes and brands of standard consumer TVs in the room. The interface box, installed behind the TV, eliminates the need to purchase more costly TVs that communicate with the patient's pillow speaker. **Paradigm Multimedia • www.paradigmmultimedia.com**

SMOOTH OPERATION This self-closing, frameless, interior sliding glass door is designed to replace a traditional swinging door. After opening, the door panel closes by itself according to eight different adjustable-speed settings. The system can be wall- or ceiling-mounted, meaning no floor track is required. **Klein • www.klein-usa.com**

QUIET POWER Shredder models 200 and DS-200 destroy paper, CDs, DVDs, audiocassettes, ID badges, credit cards and many more materials both quickly and quietly. The shredded particles meet the requirements of NSA/CSS Specification 02-02 for the destruction of paper and NSA/CSS Specification 04-02 for the destruction of optical media. **Secured Engineered Machinery www.semshred.com**

SIMPLY ELEGANT The Affina collection is offered in a variety of seating options to offer visual continuity from the lobby to the patient room to accommodate patients, visitors and caregivers. Components are replaceable and solid surfaces are bleach-safe. The pieces come with a lifetime warranty. **KI • www.kihealthcare.com**

SLEEK STYLE The second-generation Zephyr chair features a contoured frame design and flexible, mesh back. It is available in arm or armless styles and is made of cast aluminum and tubular steel. The chair's components are easily disassembled for recycling and the optional powder coat finish is VOC-free. **Stylex www.stylexseating.com**

VERSATILE COMFORT The Ascent II recliner, along with the Ascent II XL for bariatric patients, features a curved-top seat back for extra headroom, while the wingback design brings a new look to this multifunctional chair. Both models come with manual- or power-recline options with swing-away arms. **Champion www.championchair.com**

DIVERSE DESIGN The Nemschoff Merge SleepOver Flop sofa features an integrated table, recliner, 75-inch sleep surface and multiple storage options. Safety features include a front-accessible, rear-locking caster system, clean-out design, antimicrobial sleep surface and removable covers. It comes in a range of fabric styles. **Herman Miller • www.hermanmiller/healthcare.com**
