

A CLEAN RIDE The RSW rider has a 37-inch sweeping path and transitions from hard to soft floors without stopping or making adjustments. Quiet operation enables the sweeper to work quietly and efficiently without disrupting others. It slips through doorways and turns on a dime, allowing continuous cleaning and maximum productivity. **Clarke • 800-253-0367 • www.clarkeus.com**

KILLS C. DIFF SPORES

EPA-registered Dispatch hospital cleaner disinfectant with bleach portfolio kills *C. difficile* spores in five minutes, the fastest contact time available. It can be purchased as a ready-to-use spray or liquid.

Optimized Burner Efficiency at Your Fingertips

Fuel is expensive - Don't burn more than you need to.

Fireye PPC4000 combustion efficiency systems allow substantial gains in combustion efficiency over existing linkage controlled burner systems.

The resultant efficiency increases save fuel...lots of it.

Typically fuel savings in excess of 5% are achievable, making system payback incredibly attractive.

Environmentally, you can significantly reduce greenhouse gas emissions while making your boiler house equipment more productive and reliable.
