

**GOING MOBILE** The self-contained, mobile emergency room equivalent can be used where needed without compromising safety standards. The Mobile Patient Care Environment for emergency departments provides the full capacity of a patient room, condensed into a movable 2-by-2-foot platform. The unit can be moved into alternative patient care areas and has UL60601-1 approval, allowing use within six feet of the patient.

**IAQ SOLUTION** The Reznor Z-series hybrid ventilation unit integrates an energy-recovery wheel into a dedicated heat-pump system for precise ventilation and temperature control. It can recover more than 80 percent of exhaust air.

**Thomas & Betts Corp. • [www.tnb.com](http://www.tnb.com)**

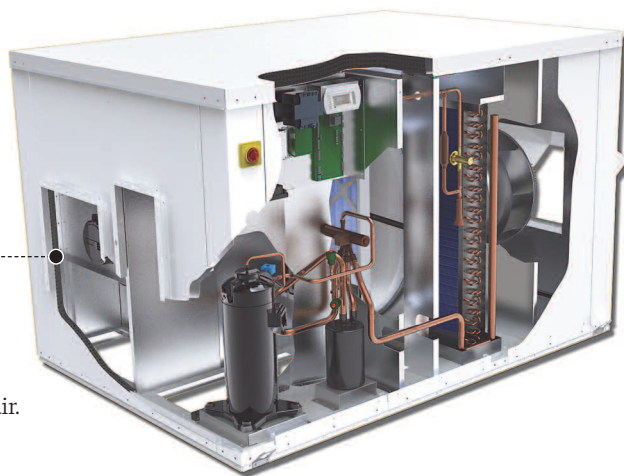

**NOW HEAR THIS** The Vocia 1.2 critical paging and voice evacuation system is designed for health care facilities of all sizes. It's expandable from a single-paging station to a system covering several zones and multiple buildings.

**Biamp Systems • [www.biamp.com](http://www.biamp.com)**

**SAFE KEEPING** The Perko Power concealed door closer can be used in areas where antiligature measures need to be taken, such as psychiatric facilities or secure units. The closer is concealed when the door is shut.

## POWER OF INFORMATION

EnergyReports is a reporting tool that enables facility managers to produce a variety of information showing a building's energy consumption and demand data. Managers can analyze building performance, comparing time periods to help troubleshoot potential problem areas.

**Automated Logic Corp.**  
[www.automatedlogic.com](http://www.automatedlogic.com)

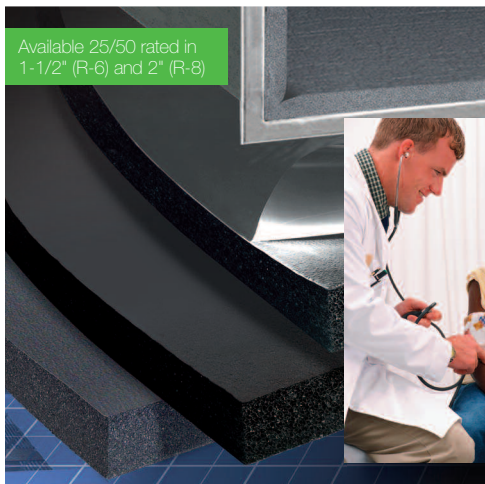

**GETTING SECURE** The P2000 security-management system seamlessly integrates with the Metasys building-management system. Through an enhanced graphical interface, operators access an interactive, real-time facility map, featuring icons to monitor and control systems and functions.

## Acoustic, Fiber-Free Duct Insulation Is The Right Solution For Air Ducts

Available 25/50 rated in 1-1/2" (R-6) and 2" (R-8)

When it comes to safe, quiet, cost-effective air delivery systems, it's what's inside the duct that counts. Only Armacell AP Armaflex® SA and AP Coilflex® elastomeric foam duct liners provide an all in one solution for lining ducts.

- Maintains indoor air quality with fiber-free, low VOC, low emitting and formaldehyde-free formulation
- Absorbs sound with superior acoustic performance at critical low frequencies
- Inhibits mold with exclusive built-in Microban® antimicrobial protection
- Reduces total life cycle costs with system-life durability
- Contributes to LEED, meets\* ASHRAE 90.1 and IECC

**VERSATILE AND DURABLE** The noraplan degree high-performance rubber floor covering offers a textured, modular look and versatile color palette to ensure a wide range of design possibilities across a variety of applications. The flooring does not contain PVC and never needs waxing or sealing, which helps ensure easy, low-cost maintenance. **Nora Systems • [www.norasystems.com/us](http://www.norasystems.com/us)**

**RANDOM ACTS OF STYLE** Three new patterns of carpeting tile offer color-overlay patterning and gradations. The installation configuration changes the depth and color blending of each pattern. The products use EcoWorx tile backing, which contains 40 percent recycled content.

**Shaw Contract Group**  
[www.shawcontractgroup.com](http://www.shawcontractgroup.com)

**ARTISTIC PATTERNS** Urban Nature is available in five patterns rooted in Japanese art and architecture. It's offered as modular carpet or in Powerbond, a hybrid, resilient sheet flooring. A variety of backings are available that are made from recycled content and are recyclable themselves.

**Tandus Flooring**  
[www.tandus.com](http://www.tandus.com)

**LOW-MAINTENANCE DESIGN** Optima iQ vinyl flooring requires no wax or finishing for the lifetime of the floor. The collection has a classic travertine look that features 44 colors. The appearance is maintained for the product's lifetime thanks to its homogeneous construction.
