

**SLIM AND SLEEK** The wall-mounted hand sanitizer dispenser blends with any decor. The ergonomic OmniStat tip allows workers to dispense product by pushing or pulling from any direction. A tab is included to indicate when the container is empty.

**Steris Corp.**  
[www.steris.com](http://www.steris.com)

**CONTROLLED ACCESS** The automated NetLock Medication Cabinet features a security system with IP access-control management software to generate reports on who entered the cabinet and when. The cabinet can be assigned access for specific staff, times and locations. Entry is made with an employee badge. **ISONAS** • [www.isonas.com](http://www.isonas.com)

**TAMPER-RESISTANT** The real-time locating system's plug-in reader prevents patients from inserting objects into slots containing energized contacts. It complies with National Electrical Code safety standards.

**RadarFind**  
[www.radarfind.com](http://www.radarfind.com)

**TIMELY SYSTEM** The new wireless, synchronized clock system incorporates the latest digital radio technology with redundancy throughout, including multiple time sources, redundant master clocks and multipath communications.

**BRG Precision Products Inc.**  
[www.duraclock.com](http://www.duraclock.com)

**FORM AND FUNCTION** The Compose open-plan system furniture provides design freedom with a range of tile options, innovative support solutions and clean aesthetics. Outward-oriented work surface shapes and glass stack options in a variety of heights support user comfort and simplify staff interaction. The system is Greenguard-certified. **Haworth** • [www.haworth.com](http://www.haworth.com)

**GRACIOUS DESIGN** The Copenhagen chairs, Lofty slot stools and Edward end tables combine beauty, durability and cleanability. The finishes are scratch-, and water-resistant with antimicrobial properties for infection control.

**Kwalu**  
[www.kwalu.com](http://www.kwalu.com)

**STURDY AND STYLISH** The Snowball Phlebotomy chair is functional and stylish. It features padded arms that are height adjustable and swing in and out. The chairs come in 22-inch and 26-inch seat widths.

**Spec Furniture**  
[www.specfurniture.com](http://www.specfurniture.com)

## SOPHISTICATED PATTERNS

The collection of upholstery fabrics features saturated color and sophisticated patterns and textures. The Greenguard-certified fibers include cotton, nylon and polyester.

**KnollTextiles**  
[www.knolltextiles.com](http://www.knolltextiles.com)

**HANDY SOLUTION** The new Enviro series of automated scrub sinks features hands-free operation that minimizes bacterial risk. A thermostatic-controlled mixing valve keeps water temperatures consistent. The stainless steel surface requires little maintenance.

**Just Manufacturing**  
[www.justmfg.com](http://www.justmfg.com)

## FOUNTAIN OF FEATURES

The re-engineered OVL-II line of refrigerated, noncorrosive stainless-steel fountains features a brushed satin finish, splash-resistant basin and a universal mounting system. When properly installed, the barrier-free design meets ADA standards.

**Halsey Taylor**  
[www.halseytaylor.com](http://www.halseytaylor.com)

**SUSTAINABLE OPERATION** The company offers eight different waterless urinals made of up to 30 percent Envirez, a soybean-based resin that reduces the use of petroleum. The unit has a 2-inch interior drain line for easy cleaning and is ADA-compliant.

**Waterless Co.** • [www.waterless.com](http://www.waterless.com)

**SAFE AND DEPENDABLE** The HSL 1 antiligature lavatory features an infrared-activated sprayhead faucet that is mounted flush to the basin. It is available in 21 colors of Terreon solid-surface material or eight colors of TerreonRE, which contains recycled materials.

**Bradley Corp.**  
[www.bradleycorp.com](http://www.bradleycorp.com)

**POWER READY** The CMF/TMF/ZMF Series of emergency lighting comes in 6-, 12- or 24-volt, 25- to 450-watt units with high-performance MR16 lamp head assembly options. Self-diagnostics monitor critical functions. **Chloride Systems • [www.chloridesys.com](http://www.chloridesys.com)**

**SAFE LIGHT** LED backlit graphic therapy illuminators are thin and lightweight. The illuminators are free from electromagnetic and radio-frequency interference, making them ideal for various medical applications.

**Medical Lighting Systems**  
[www.medicallightingsystems.com](http://www.medicallightingsystems.com)

**ENERGY SAVER** Engineered for energy efficiency and sustainability, LEDway is a versatile, high-performance lighting solution designed for street, roadway and parking lot applications. It retrofits onto existing mounting systems.  
**BetaLED • [www.ledway.com](http://www.ledway.com)**

**OPTIMALLY SOFT** The 2-by-2-foot, recessed LED indirect luminaire can replace comparable fluorescent alternatives for general lighting applications. The light provides soft, glare-free illumination without excessive brightness.

**Cooper Lighting • [www.cooperlighting.com](http://www.cooperlighting.com)**
