

HEADY SOLUTION The headwall system features modular, removable panels that can be adapted easily to changes in technology and are made primarily with a nonporous DuPont Corian surface for added durability. Leads, gas taps and other medical equipment are concealed from patient view to provide a more relaxing environment. **Futrus Solutions** • www.futrus.com

SAFE KEEPING This new hardware solution offers the company's ML2000 mortise lock constructed in heavy-gauge steel. The product features a push-pull paddle trim available in a range of finishes, including stainless steel and Microshield antimicrobial. It is appropriate for a variety of behavioral health care settings. **Corbin Russwin** • www.corbinrusswin.com

TOUGH FINISH Extreme Texture Coat is a durable spray-on interior wall finish that provides enhanced moisture and mold resistance. The acrylic-based texture can be used with conventional spray equipment. It also can provide a finish for high-performance boards. **CertainTeed Gypsum** www.certainteed.com/gypsum

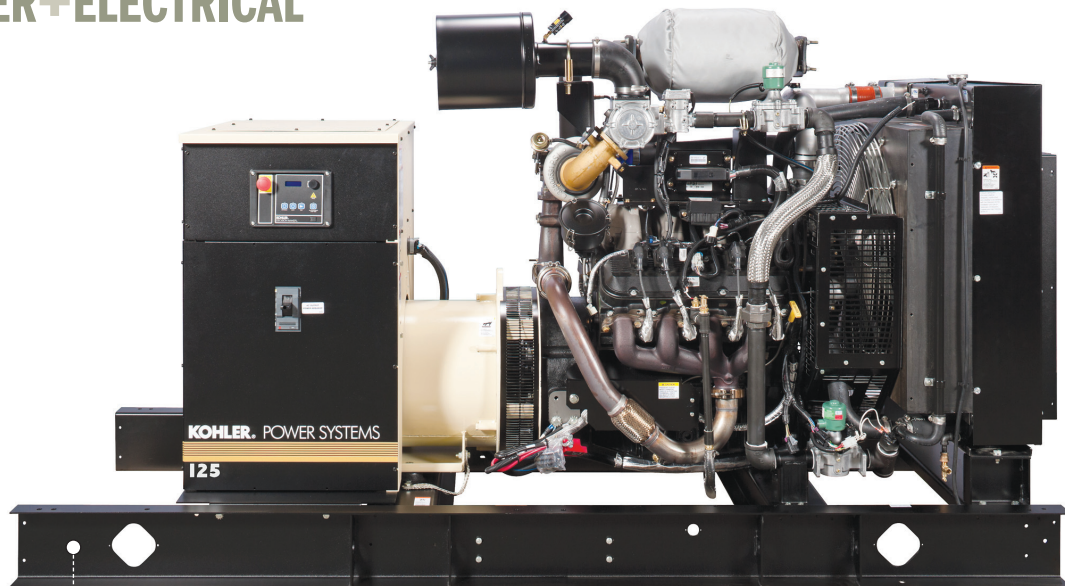

CUTTING NOISE Two-inch thick blades offer visual and sound-reduction enhancements. The preassembled SoundScapes blades come with metal hanging clips embedded in the top of the panel for easy installation. They are offered in 14 standard colors. **Armstrong Ceilings** • www.armstrong.com/soundscapesblades

RELIABLE POWER

The generator set starts within 10 seconds per National Fire Protection Association (NFPA) 110 requirements. The unit and its components are factory-built and production-tested. It operates on a variety of fuel sources, including diesel, natural or LP gas. The 60 Hz unit meets NFPA 110 Level 1 performance standards. **Kinsley Power Systems** • www.kinsley-group.com

FLEXIBLE UNIT

The Liebert RX remote power distribution cabinet provides data center managers with a space-saving, flexible solution for high-density power distribution (50–60 Hz). Up to four floor- or wall-mounted units can be configured in multiple space-saving clusters that fit standard raised-floor environments.

WALK THIS WAY The company provides a comprehensive package of products, including clear wayfinding, ADA-ready solutions and signage that complements décor designed for healing environments utilizing modular systems, custom creations or a combination of both. **ASI** • www.asisignage.com

CREATIVE OPTIONS Working with creative elements like dimensional lettering and unique lighting and using diverse materials such as metal, acrylic and wood, the company can develop effective, affordable wayfinding solutions that can be updated as needed. **Signs by Tomorrow** • www.signsbytomorrow.com

PLANNING AHEAD The company's wayfinding platform ties together interactive in-hospital wayfinding with the capability to preplan from home. An integrated wayfinding database provides step-by-step directions to anywhere in a hospital via self-service interactive kiosks, hospital computers or visitors' PCs. **Logic Junction** • www.logicjunction.com

TIMES OF THE SIGN Digital window displays offer up-to-the-minute information throughout a facility. Effortlessly change meeting times, presentation titles or any message with content management software. When rooms are not in use, display announcements, news or weather feeds. **2/90 Sign Systems** • www.290signs.com
